VISHAL YADAV

MACHINE LEARNING FRESHER

A-403 Shashi Avenue vatva Ahmedabad | 9313447643 | vishalyadav931390@gmail.com

PROFILE SUMMARY

I am a motivated machine learning beginner with a good understanding of how to work with data and build models. I know how to use Python Libraries and popular tools of scikit-learn. I have completed projects that show my ability to apply machine learning techniques. I am eager to learn and grow in a team environment where I can contribute and develop my skills.

SKILLS

Communication skill	Python	MySQL	Excel	Numpy	Pandas
Data Cleaning	Data visualization	Matplotlib	Seaborn	Scikit Learn	

EDUCATION

2021 – 2024

Bachelor of Computer Application

Silver Oak University

- Ram Techno Fire Services:
- I have done team project using WordPress and PHP.
- The Website was made to sale fire equipments.

WORK EXPERIENCE

2021 – Present

Home Tuition

Running tuition classes for 1st to 8th standard

Subjects:

- Mathematics
- English
- Hindi
- Social Science
- Science

PROJECTS

BMI Calculator (Mini project using Python)

- Using Python I have created BMI Calculator.

Sentiment Analysis Using NLP

- It is used for knowing Sentiments of people using NLTK Libraries.
- This takes feedback from people and knows Sentiments of people according to data.
- In the dataset there is Feedback (Positive , Negative , Neutral) of the people according to the social media(Instagram, Facebook , Twitter).

Housing Price Prediction using Linear Regression

- In this project i have create a model to predict the price of the house according to area ,space , population and age of the house.
- I have used the Linear Regression for create the model and build it predictive.
